Diploma in Floriculture & Landscaping

Floriculture and Landscaping offers diversified opportunities that are challenging, intellectually stimulating, and economically rewarding. Floriculture and Ornamental Horticulture is the science and art of producing, distributing, marketing, and using flowers, flowering and foliage plants, and woody ornamental landscape plants. It offers a wide variety of employment opportunities both for males & females at competitive salaries.

The Program Covers

The Program Covers 384 study hours spread over 18 (12+6) credits of course work. The main areas covered are Ornamental Trees, Shrubs, Climbers & Ground covers, House Plant Care & Propagation, Seasonal Flowers Production, Flowering Bulbs Production, Commercial Flower Production and Floral Arrangement, and Landscaping.

Admission

Admission to new students is offered every year in spring semester through advertisement.

Eligibility criteria

Applicants having matriculation would be eligible to apply.

The Program of Study

The mode of study will be **face to face** and practical will be performed in horticulture section at the main campus Allama Iqbal Open University, H-8 Islamabad.
