ALLAMA IQBAL OPEN UNIVERSITY

Allama Iqbal Open University, a mega university was established in 1974 under an Act of Parliament. The main campus of the university is situated in sector H-8, Islamabad. It was the second open university of the world and the first of its kind in Asia and Africa. The aim of establishing AIOU was to provide affordable and accessible education through distance learning at the door-steps to those people who could not continue their education journey through formal system of education. The University (AIOU) operates on semester system and admits students in Autumn and Spring semesters. Under graduate admissions are offered in both the semesters whereas post graduates are offered once a year. The enrolled students are given course books specially prepared by the university on self-instructional principles. However, at post graduate level reprints of foreign books alongwith allied material and university prepared study guides help students to polish their skills.

At present, the AIOU is offering programmes from Matric to PhD level in diverse disciplines comprised of four faculties. The university has established study centres across the country where distance education

students are provided necessary guidance by their respective tutors. Moreover, the university has established full-time study centers wherein the students of MBA (IT), MBA (Banking and Finance), MBA (Marketing), MBA (HRM), B S (CS), M S c /BS Chemistry, MSc/BS Microbiology etc. are being provided instruction, guidance and counselling through face-to-face education. AIOU is also offering four years' under-graduate degrees.

Apart from curricular and extra-curricular activities during the academic year, the AIOU and its regional centers actively participate in the co-curricular activities by arranging educational and literary seminars, workshops and conferences, attended not only by the students and faculties of the university but also by the renowned dignitaries and scholars. For the science students and the research scholars, a science complex has been built where they use the latest equipment of international standard for experiments and research. To meet the present day challenges, internet facility is also available in the student hostel and the Central Library where computers have been provided to enable students to access latest information available through open source databases.

DEPARTMENT OF CHEMISTRY

The Department of Chemistry was established in March 1998. Its faculty consists of one Professor, three Associate Professors, three Assistant Professors and three Lecturers. All faculty members are highly qualified having either PhD or post-Doctoral degrees. The department has modern equipment/instrumentation in its teaching and research labs in the Science Block at AIOU main campus. This equipment includes CHNS analyzer, Thermal Analyzer, UV-Visible, Fluorescence and FTIR Spectrophotometer, GC-MS, HPLC, GC-MS, Atomic Absorption Spectrometer, 3 Electrochemical Systems and Inductively Coupled Plasma Optical Emission Spectroscopy (ICP-OES).

The Department has developed all the courses in accordance with the guidelines provided by the Higher Education Commission (HEC). These courses are reviewed from time to time through Committee of Courses to incorporate emerging modern trends in the subject. The Committee of Courses of the department has distinguished professors and scientists of the country as members besides departmental faculty. The Department of Chemistry is going to offer skilled based Certificate in manufacturing of surfactant based products from Autumn 2024.

At present, Department of Chemistry is offering and coordinating the following programs:

1. Certificate in manufacturing of surfactant based products
(**New Offering**)

2. BS Chemistry
3. MPhil Chemistry
4. PhD Chemistry

Other than teaching practices, the Department has vigilantly engaged students in developing the skills to incorporate their chemistry knowledge into the practice field so that instead of becoming job seeker after the completion of degree. In this regard the department has tradition to organize product exhibition in which the students display their lab made product and discuss their marketing potentials. The chemistry knowledge acquired in the class teaching and practical knowledge gained through practices/lab work conducted in state of the art laboratories at department of chemistry, lead the students to generate innovative idea and business plans. Special attention is being given to groom the students with ability to develop marketable product/innovative chemistry based business idea/plan. Our student have participated in multiple innovative idea plan and scored multiple prizes.

The department of chemistry has also been organizing international conferences annually. Till date department has organized six international conferences on recent trends in chemistry and the department is honored to host multiple international symposiums. The department of chemistry has also been actively involved in co-curricular activity to enhance knowledge of students through poster/model exhibitions and quiz competitions.
