Vice-Chancellor's Message

Dear Student,

السلام عليكم

Welcome to Allama Iqbal Open University, the First Distance Education University in South Asia, that caters to the educational needs of 1.3 million students to enable them to study at their own place, at their own pace and at their own convenience. The University goes to the doorsteps of the students, irrespective of the distance and location of students. One can become a student of this university at any age as we consider education a life-long and continuous process. The University has a vast menu of educational program at different levels, starting from basic literacy program to the PhD program. The courses are regularly revised in order to keep them contemporary, relevant, and internationally compatible. Self explanatory course material helps the students to comprehend the course concepts without physical presence of the teacher. The self-assessment activities, included in the books, help ensure the acquisition of earning outcomes. This university offers maximum number of specialization at post-graduate level through four faculties -- Faculty of Arabic and Islamic Studies, Faculty of Education, Faculty of Sciences, and Faculty of Social Sciences and Humanities. The faculty members at the university and a huge network of tutors, resource persons, specialists and experts make sure that the courses being offered in these programs enable the students to become independent learners and critical thinkers. Post-graduate level studies invite you to critically examine what has already been done in your field of interest and then research to offer innovations.

I welcome you to the postgraduate studies at AIOU and wish you a challenging yet successful journey ahead.

(Prof. Dr. Shahid Sddiqui)
Vice Chancellor, AIOU

1. ALLAMA IQBAL OPEN UNIVERSITY

Allama Iqbal Open University, a Mega university was established in 1974 under an Act of Parliament. The main campus of the university is situated in sector H-8, Islamabad. It was the second open university of the world and the first of its kind in Asia and Africa. The aim of establishing AIOU was to provide affordable and accessible education through distance learning at the door-steps to those people who could not continue their education journey through formal system of education. The University (AIOU) operates on semester system and admits students in Autumn and Spring semesters. Under graduate admissions are offered in both the semesters where-as post graduates are offered once a year. The enrolled students are given course books specially prepared by the university on self instructional principles. However at post graduate level reprints of foreign books, allied material with university prepared study guides help students to polish their skills.

At present, the AIOU is offering programs from matric to PhD level in diverse disciplines comprising of four faculties. The university has established study centres

across the country, where distance education students are provided necessary guidance by their respective tutors. Moreover, the university has established full time study centres, wherein the students are being provided instruction, guidance and counselling through face-to-face education. AIOU is offering four year under graduate degrees.

Apart from curricular and extra-curricular activities during the academic year, the AIOU and its regional centres actively participate in the co-curricular activities by arranging educational and literary seminars, workshops and conferences, attended not only by the students and faculties of the university but also by the renowned dignitaries and scholars. For the science students and research scholars, a science complex has been built where they use the latest equipment of international standard for experiments and research. To meet the present day challenges internet facility is also available in the students' hostel and the Central Library where computers have been provided to enable students to access latest information available through open source databases.

2. FACULTY OF EDUCATION

The origin of the Faculty of Education pre-dates the university itself. The National Institute of Education was established in 1973 under the Federal Ministry of Education. It became part of the university in June, 1975 as Institute of Education in the Faculty of Social Sciences. The progressively extending functions of the Institute brought the needs for structural change and in 1984 it got the status of Faculty of Education.

Departments of the Faculty

Faculty of Education comprises the following six departments:

1. Distance, Non-Formal and Continuing Education

3. EARLY CHILDHOOD EDUCATION AND ELEMENTARY TEACHER EDUCATION

The Department of Elementary Teacher Education was established in 2003. In April 2008, the name of Elementary Teacher Education Department was changed as Early Childhood Education and Elementary Teacher Education Department

The Elementary Teacher Education Department offers ADE, PGD in ECE and BEd programs, it also offers “Education” as subject at Matric, Intermediate and Graduate level.

Early Childhood Education and Elementary Teacher Education Department is one of the largest departments of this institution in terms of its enrollment of students and the number of courses offered by this department.

4. ASSOCIATE DEGREE IN EDUCATION (ADE) (Two Year)

Introduction:

The National Education Policy of 2009 states that to improve the overall quality of education in Pakistan, the standard of teacher education must be raised. The policy calls for reforms in pre-service training and standardization of professional qualifications.

As a step towards improvement in educational standards new National Scheme of Studies for school education was developed. It was notified by the Ministry of Education (MOE) in 2006. Major objectives of new scheme included teaching of school subjects using interactive student centered methods focusing on

development of higher order cognitive skills. The new scheme suggests a paradigm shift in learning from teacher centered, rote learning to student centered and active learning. Better educated and trained teachers are required to implement the scheme effectively. ADE and B.Ed (Hons.) programs have been introduced with the focus on nurturing those aspects in teachers that correspond to the basic requirements of National Education Policy 2009, National Scheme of Studies 2006, National Professional Teaching Standards 2008 and National Accreditation Council for Teacher Education 2009.

ADE is a transitional two year program of 72 credit hours linked with and leads to B.Ed (4 year) and will replace the existing diploma, PTC and CT programs providing an opportunity to prospective teachers to enhance their academic qualifications and acquire a professional degree.

Aims & Objectives:

- To equip the prospective teachers with adequate knowledge of subject matter, contemporary pedagogy techniques, communication skills, critical thinking, and dispositions to be an elementary school teacher.
- To offer students a teacher education program that allows them to move through a four year B.Ed., by completing part of the degree (ADE) and completing the remaining two years of the program immediately, or by completing the additional year(s) at a later date.

Eligibility Criteria (ADE):

1. FA/F.Sc/A levels with 45% Marks
2. Applicants with A Level or other certificates will submit equivalence certificate.

4. Associate Degree in Education (*In-Service*) one year Programme Description

The Associate Degree in Education (In Service) is a new Teacher Education Program designed for in-service teachers. Major objectives of the scheme are to facilitate in service teachers to utilize their teaching potential and further develop their teaching skills. The program is the first step towards developing and strengthening a community of well trained teachers at elementary level. The program is developed for in-service teachers having twelve year education with PTC, CT and Diploma in Education with 05 years teaching experience. The focus of the program is to enhance general education and content knowledge of the practicing teachers alongside inculcating effective and innovating teaching skills to upgrade the essential competencies of the teachers.

While most of the universities/DAIs across the country have already successfully introduced Associate Degree in Education for prospective teachers but a larger number of elementary level teachers are yet either inadequately prepared, under qualified or both. Besides, after 2018, the career progression opportunities for most of these practicing teachers will be closed as ADE or B.Ed (4 years) degree will be mandatory for induction as well as for promotion.

It is, therefore, critically essential that new avenues for career development are opened for practicing teachers as well and opportunities are created for them to develop their teaching skills and professional competencies. Besides, the dream of bridging about a country-wide qualitative change in education cannot be translated into reality unless these massive numbers of elementary level teachers are also initiated into the newly envisaged education system as pointed out in Higher Education Commission report.

In addition, the introduction of in-service program side by side with pre-service program, already being implemented, augurs well for the wider qualitative change intended and will go a long way in enhancing the degree of motivation in practicing teachers for keeping pace with the new changes and securing opportunities for their career advancements.

Program Objectives

The objectives of program are to:

- Upgrade the content knowledge.
- Increase pedagogical skills and knowledge of the practicing teachers at elementary level.
- Raise the practicing teachers to be in a competitive position for career progression.
- Equip practicing teachers will essential professional skills and competencies.
